Microsoft Certified Azure Data Scientist | Specialized in Machine Learning & Business Analytics

Colchester, England, United Kingdom

Summary

I am a highly motivated and results-driven Data Scientist based in London, UK. I have a solid educational background in Software Engineering, Statistics, and Data Science, and extensive experience in developing innovative solutions for complex data-driven problems. With my adeptness in leveraging machine learning, artificial intelligence, and big data technologies, I deliver actionable insights and drives business performance. I have a proven ability to work collaboratively with cross-functional teams, communicate effectively with stakeholders, and create impactful data visualizations.

My experience extends to working in diverse environments, from part-time roles in academic settings to internships in dynamic corporate sectors. These experiences have equipped me with a unique perspective on data analytics and business intelligence. At Digitify Pvt Ltd, I successfully analysed and refined machine learning algorithms for text recognition, reducing customer complaints by 30%. This achievement highlights my capability to leverage data insights for customer satisfaction and business growth.

In my recent role as a Data Analyst at CodeBasics, I conducted in-depth data analysis using SQL and Power BI, identifying key trends and performance indicators for Atliq hardware. Through the creation of dynamic dashboards, I improved efficiency by 15%, providing stakeholders with actionable insights to drive data-driven decision-making. This experience has equipped me with the skills and expertise necessary to effectively investigate and troubleshoot problems.

My technical skills include proficiency in Python, R, Apache Spark, Tableau, Power BI, Microsoft Excel, Latex, MySQL, Hadoop, and PostgreSQL.

My professional interests include Data Science, Data Analysis, Data Engineering, Machine Learning, Actuarial Science, and Statistics.

Moreover, I am committed to continuous learning and professional development, as evidenced by my certifications in Azure Data Science Associate, Google Data Analytics, AWS Cloud and Data Analytics, and specialized training in Power BI and SQL. These credentials, coupled with my practical experience, have prepared me to make an immediate impact in your team.

I am seeking to leverage my skills and experience to contribute to a forward-thinking organization as a Data Scientist/ Data Analyst. I am passionate about data science and eager to bring my skills and experience to the next challenge.

Experience

digitify
Junior Data Scientist
August 2023 - February 2024 (7 months)
London Area, United Kingdom

In my role as a Data Science Intern at Digitify Pvt Ltd, I developed deep understanding into the world of machine learning and data analysis. I was tasked with developing innovative algorithms for text recognition in mobile banking images, contributing to a notable 30% decrease in customer complaints.
